

PREPARED FOR THE WORST.  
Pittsburgh Dispatch.—Peary obituaries are still handy things to have on tap.

THE WORLD'S RELIGIONS.  
Baltimore American.—The Parliament of Religions has proven that one half of the world does not know what the other half believes.

THIS IS A BIG COUNTRY.  
Indianapolis Journal.—Says an exchange: "The beauty of living in Alaska is that you never hear of hard times until they are over."

RATIOS OF GREATNESS.  
Minneapolis Journal.—General Weaver gets \$25 each for his speeches. In other words, he is just one-fourth the man Mary Ellen Lease is.

Kansas City Journal.—An old soldier out in Kansas put it very aptly when he said that the pension list had to be sifted he didn't want it to be done through a Confederate sieve.

THE SOONER THE BETTER.  
St. Louis Globe-Democrat.—It is to be hoped that Mr. Wilson will get his Tariff smashing bill prepared in time for use as a Republican campaign document this year.

A MUGWUMP WAIL.  
Providence Journal.—The supply of Kentucky Statesmen for all sorts of positions, from that of Supreme Court Justice and Secretary of the Treasury to Clerks of Departments, is still abundant. The demand must be very urgent, or else the other states can get none of their names presented.

HIS EIGHTEENTH CHILD.  
London Vanity Fair.—The infant who has just made his appearance at Holkham Hall, Lord Leister's eighteenth child, the present Lady Leister, a sister of the Duchess of Westminister, married Lord Leicester in 1875. There are fifty years of difference in the age between Lord Leicester's eldest child, Lady Powis-court, and the young gentleman who made his appearance a few days ago.

THE HERESY "JAR."  
Chicago Journal.—Henry Preserved Smith is again in evidence. The Ohio Synod is to do a little more wrangling over him next month. Professor Smith's case, like his middle name, reminds one of a certain old German farmer's advice. A housewife has just bought some butter of him and asked how to keep it fresh. "Oh poor her in a jar—she'll keep," was the answer. This little Presbyterian jar is showing every indication of "keeping" for an indefinite period.

DEMOCRACY'S RESPONSIBILITY.  
New York Press.—A few silly Democratic orators are still trying to humbug their readers in cackling about the "die trust" caused by the Sherman Law. The sham is threadbare. It is time that it was dropped.

The Sherman Law has not caused the "distress" that has closed hundreds of factories, bankrupted thousands of firms and impoverished multitudes of American citizens. Under a Republican Administration we had the Sherman Law in full operation with marked commercial prosperity and the most encouraging industrial development. The Sherman Law has given valuable assistance to the Western silver industry, and furnished the country with about one hundred and fifty millions of urgently needed currency, every dollar of which is equal in purchasing power to the gold dollar today.

With Benjamin Harrison in the White House the Nation knew that the integrity of every dollar earned by toll would be protected by the whole power of the National Government. It knew that the Republican President stood ready to issue bonds to any amount that was necessary to maintain the public credit. It knew that President Harrison would never sign a bill framed to prostrate American industry and degrade the wages of American labor to the level of foreign pauperism. The merchant, the banker and the wage-earner pursued their callings in confidence and security, conscious that behind all their just interests there was all the might and all the credit of the Nation.

The triumph of Democracy swept away every one of these safeguards. The politicians who had threatened to destroy Protection and beggar labor came into office with full power to execute their threat. The President stubbornly refused to issue bonds to maintain the Treasury reserve, and deliberately sacrificed the business interests to make an "object lesson." The country knows the rest. The responsibility for the loss and destruction of the last six months belongs not to the Sherman Law, but to Grover Cleveland and the Democratic party.

## VENGEANCE,

Swift and Terrible, Taken at Roanoke, Va.

The Colored Assailant of Women Hanged, Shot and Cremated.

There is Much Indignation Against Mayor Trout and the Militia—The Mob Threatens to Burn the City, and the Mayor Disappears From the Place.

ROANOKE, Va., Sept. 22.—A squad of twenty men took Smith, the colored man, from the policemen just before 5 o'clock Thursday morning and hanged him in a livery limb on Ninth avenue, S. W., in the residence section of the city.

They riddled his body with bullets, and left a placard on it saying: "This is Mayor Trout's friend." The colored man, however, was not dead, and was removed and viewed the body and rendered a verdict of death at the hands of unknown men. Thousands of people visited the scene of the lynching between daylight and 8:30 o'clock, when the body was cut down. After the jury completed its work the body was placed in the hands of officers, who were unable to keep back the mob. Three hundred men tried to drag the body through the streets of the town, but Rev. Dr. Campbell, of the Methodist church, Rev. Dr. Capt. H. B. Moore, who was plain and by force of strength prevented them. Capt. Mooreman hired a wagon and the body was put in it. It was then conveyed to the bank of the Roanoke, about a mile from the scene of the lynching. Here the body was dragged from the wagon by ropes for about 200 yards and then burned. Piles of dry brush wood were brought and the body was placed on it and more brush wood on top of it, and it was burned.

The whole pile was saturated with coal oil and a match applied. The body was consumed within an hour. The cremation was witnessed by several thousand people. At one time the mob threatened to burn the corpse of Mayor Trout's son. The mob, which included against Mayor Trout and the militia, and many threats of vengeance have been openly made.

Capt. Bird, the commander of the militia, has left town. Mayor Trout also disappeared, and President Buckner, of the city council, is acting mayor.

Excitement is running high now. The citizens are now talking of holding an indignation meeting, and it is rumored that the mob still exists and are making to burn the town unless satisfaction of some sort is rendered. Crowds throng the streets and all the public places.

There is an immense crowd in front of Oakley's Woods, the residence of Capt. Bird, and the body of the dead men, who were men of the dead bodies lie. The number of killed was exaggerated Wednesday night, and now it is found that only nine men are dead.

It is claimed by members of the military company that they frequently warned the mob to leave away from the jail under penalty of being shot. Capt. Bird told them he was under orders to protect the prisoner whose life the mob would surely take if he failed to do so. To this the mob replied with hoots and derisive jeers. The rioters appeared to become frenzied at the determined stand taken by Capt. Bird and his men, and finally a crowd of determined men, who were not members of the jail. The captain directed his men to drive the would-be lynchers back. At this moment the mob opened fire on the soldiers. This appeared for a moment to startle the captain and his men. But it was only for a moment. Then he coolly gave the command: "Ready! Aim! Fire!"

GEN. ALGER.

His Views Regarding the Existing Financial Depression Include Repeat of the Sherman Law.

NEW YORK, Sept. 22.—Gen. Alger, of Michigan, arrived at the Holland hotel Thursday en route to Washington to attend a meeting of the Logan monument fund. The general represents the Grand Army on the monument committee.

Gen. Alger is also a trustee of the Sheridan monument fund, representing the G. A. R. Gen. Alger has given Sculptor Ward an order for a bronze statue of Gen. Sheridan or horseback, which he will present to Mrs. Sheridan. Gen. Alger said he was much better in his state and the West. He did not care to discuss the affairs of the railroad in which he is interested, which recently went into the hands of a receiver, beyond saying that he thought it would come out all right in the end.

"If the senate would only repeal the Sherman act," he continued, "I think confidence would be restored."

"People believe the trouble lies in that the country is the only way to do to repeat the act." Whether this is the real cause of the depression is another question. We want confidence restored. I must say that the people of the west have stood to us admirably in a financial way. The debtor class stood of showing a disposition not to try to pay, have worked manfully, and are now doing all they can to pay. The creditor class has acted well, and has not lost faith in the outcome. Just as soon as the Sherman act is repealed business will look up and times will be easier again."

Tramps Attack Trainmen.

LIMA, O., Sept. 22.—Late Wednesday night a number of tramps boarded a freight train on the Cincinnati, Hamilton and Dayton road at Tadmor, south of here. They attempted to take possession of the train and a trainman tried to eject them. In the encounter J. W. Bodine, one of the brakemen, was shot, and the tramps made their escape. Bodine was brought to his home, in this city, early Thursday morning. His wound is a very serious one.

To Too High Pressure.

In these days of keen competition in every line, when the business man is compelled to do more and more every day to the success of his business; the civic book-keeper, professional man and laborer, to drive themselves at a terrific rate, there can be only one result—an explosion, which if not resulting in blinding, death, leaves them with shattered brains and bodies. They are running at too high pressure. The strain is so great, something must give way. This is equal to three women. Their spires are more limited, they have their daily burdens, frets, and worries, and the results are the same as with the stronger members of the gang.

The explosion is growing worse every day. The rapidity of its increase is awful to contemplate. Our homes, hospitals, and insane asylums are full of these unfortunate, rounded up on Walton Island, Jackson park, Thursday for the first annual scientific fly casting tournament for the world's championship. The casting is now done in the open air, and every constant has an expert record. The present official record is 103 1/4 feet, without weight on other contrivance on the line except the fly, and it is doubted whether this phenomenal performance can be beaten.

France's Destructive Cystose.

PANAMA, Sept. 22.—The cyclone that passed over the country about LaFayette swept everything in its path. Factories, villas and cottages went before the wind. The railroad station at LaFayette was torn to pieces. The force of the wind was so great that it carried away the roof of the building.

## MET THEIR MATCH.

**Bandits Hold Up an Illinois Train but Get the Worst of It—One Robber Mortally Wounded.**

CENTRALIA, Ill., Sept. 22.—The New Orleans Limited train on the Illinois Central was held up shortly after 11 o'clock Wednesday night just outside this city by three men who boarded the train at Centralia. In the battle which ensued between the robbers and train hands, one of the robbers was mortally wounded and three of the crew were badly hurt.

The thieves got nothing in the way of booty, and all the grown inhabitants of Centralia were present to witness the daring thieves who got away.

Those who were hurt in the shooting incident to the attack were Engineer Young, Conductor Odum, Fireman McDowell, and a robber, name unknown.

The train held up left Chicago Wednesday and reached this city at 11:30 p.m.

The three men who had gotten on the train and the express car were all killed.

Shortly after leaving Centralia, the engineer was commanded to stop the train, but both he and the fireman refused to obey, and were shot.

Two of the robbers then went to the express car but were greeted with exploding bullets, and a regular fusillade ensued.

With the aid of grappling irons to hold them out high enough to be out of reach of the aim of the express messenger and conductor, who were firing from inside the car, the robbers forced their way into the car. Here a battle royal followed.

The messenger and conductor were plucked, and partly guarded by boxes and packages, and were shot by the robbers as fast as they could shoot.

The thieves fled too, but they were at a disadvantage. During the shooting the conductor received a slight pistol wound in the hand.

Neither of the other two was able to cope with help came to the railroad employees. The shooting had aroused the passengers, and they, terrified and just waking up, had been busy concealing their valuables.

On the train, deadheading his way, was one of the express men on the road. He came to the rescue of the conductor and messenger armed with a shotgun. He attacked the robbers from the rear, and though in return attacked by the third robber, managed to shoot down those in the express car through the hole.

The others, seeing their companion fall bleeding, took to their heels and got away through the fields.

One of the train hands hurried back to Centralia with the news of the robbery, and the town was quickly aroused. In half an hour a posse was beating all the country near the place where the train was held up.

It is not known how much money was in the express messenger's car, but it is said the amount exceeded \$50,000.

The express company officials received a message early Thursday morning saying that the wounded robber conductor, as well as the messenger, had been killed.

James Sanders leveled a shotgun at him, fired point blank and riddled him with shot. He fell to the floor of the car bleeding and groaning.

The wounded robber gave his name as John Jones, and the passenger who passed under the name of Daniel Jones and a traveling card from a Chicago order of railway trainmen, issued August 24; also switchman's pass, issued by the Santa Fe route at Kansas City. He gave his name as Martin Nichols, of El Paso.

There was some talk by the passengers of hanging Jones to a telephone pole, but Centralia officers protected him and locked him up under heavy guard.

Engineer Young was shot in the shoulder and in the center of the back. The fireman was shot in the chin and forehead, the ball lodging in the neck. Conductor Odum received a painful wound in his right hand. All of the train crew live at Centralia.

RUN DOWN.

An Organized Gang of Robbers Who Have

Heed Plundering Many Trains.

LAWRENCE, Sept. 22.—For several months Lake and the freight trains between this city and Butler have been systematically plundered, with the result that the railroad company has sustained a loss of from \$50,000 to \$75,000. No trainmen have established the fact of the existence of an organized gang.

Greenwood and Evans, two ring-leaders now in the toils, have turned states evidence, implicating parties in towns along the road. Greenwood and Evans, who are now in custody, are holding place of the stolen plunder. The two burglaries throughout northern Indiana and Illinois are believed to be the work of this gang. It is thought they know something about the Kendallville train robbery.

The gang is growing worse every day.

The rapidity of its increase is awful to contemplate. Our homes, hospitals, and insane asylums are full of these unfortunate,

rounded up on Walton Island, Jackson park, Thursday for the first annual scientific fly casting tournament for the world's championship. The casting is now done in the open air, and every constant has an expert record.

The present official record is 103 1/4 feet, without weight on other contrivance on the line except the fly, and it is doubted whether this phenomenal performance can be beaten.
